

  
Transition in Healthcare

 means  for you  from  to

   teams.

 you  older  will  to  about 

    to  yourself.

The people you will see in the adult team will be

different to the ones you saw as a child.

You will go to a different part of the hospital or clinic

when you see the adult Dr's, nurses and other healthcare

teams.

We will talk to you and your family when you are

13 years.

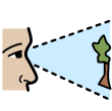

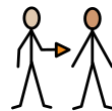

If you need to stay in hospital you will go to an

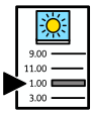

adult ward when you are 16 years old.

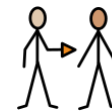

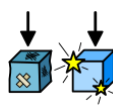

We can give you and your family information.

We try to find out what is important to you and your

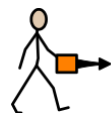

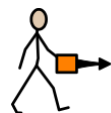

family and what you need help with.

 We  might  be able  to  see  you  for  some  of  your

 appointment  on  your own.

 We  can  help  you  learn  about  your  health  conditions.

 We  can  help  you  learn  about  any  medicines  you

 need  to  take.

 We  work  with  dr's,  nurses,  school,  social  care,  to  help

 you  with  your  needs as an  adult.

 You  and  your  family  can  call  us to  ask questions  and

 get  help.

 You can  ask  Dr's  and  Nurses  questions  at  your  appointments

to  find out  more  information.

 You can  telephone  us **01223 218016**

Questions

you can

ask

When

am I

moving

to

adult

services?

Can

I

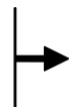

meet

the

staff

from

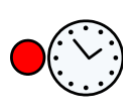

the

adult

team

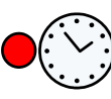

before

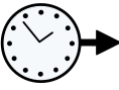

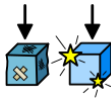

I

move?

          
Can I look around the adult department before I move

       
What will be different about the adult service?

          
How will my health condition affect me as an adult, my

   
education or employment?
